

Scissors and Paste By E. G.

Persona non Grata...

It seems we're persona non grata with certain circles at Queen's. The Queen's Journal, in a story headed "CFRC Forgotten," complains about the publishing of radio station CKUA at the University of Alberta as the only university-operated broadcasting station in Canada although Queen's itself has one, CFRC, in the electrical building. The station at Queen's, the Journal adds, is the only one in the vicinity of Kingston.

And here is where we come in. "... this vile calumny," says the Queen's paper, "has been taken up by the McGill Daily, which again speaks of the Alberta station as being the only university radio station in Canada. Montreal being so much closer to Kingston than Alberta, this neglect is inexcusable."

We picked up the item about the Alberta station in The Gateway and thought it was more than mere "local pride" as the Journal calls it. We are glad, however, to yank accuracy with its light from behind the proverbial bushel and we stand chastised for our ignorance of the broadcasting activities at Queen's. We now await with bated breath what The Gateway will have to say.

There Once Was...

Who knows but some day an enterprising soul may decide to compile a compendium of those little ditties opening with "There was a young man" or "There was a young guy" as an example of what they were saying in their off-moments in 1940. Sillier things have been done.

To this as yet unknown historian we recommend the following little thing culled from the Boston University News as the peak of something or other:

There once was a guy from Paducah
Who went out with a very good Luach.
When they went in to eat
She refrained from all meat,
Which made him very glad that he tuch.
Ouch!

Streamlined Males, Girl Amazons.

An anthropologist at Harvard has recently released figures to show that college men are becoming less stocky, muscular, and boney and are becoming taller and are developing more delicate and narrow-hipped physiques.

Comparing the builds of fathers and sons who have attended Harvard, the figures show that the sons are on the average taller and weigh more.

With reference to whether or not college girls are becoming Amazons, the Harvard Crimson says:

"If the answer to this question can be found in hip measurements, then the male of the species will soon become merely a number of harassed 'Lil Abners' in a female-dominated world. For the hips are smaller and the girls larger in the current generation at Wellesley, Vassar, and Smith, than in previous years."

We just thought you'd like to know all this. After all, there is nothing like keeping up with the times.

Item...

From the Daily Athenaeum, West Virginia University:

"We think one of our campus draftees has something when he complains that he's behind the 158 ball."

RVC '42 CLASS PICTURE

The R.V.C. class picture will be taken on the Arts Steps today at 1 p.m. All members are requested to be there on time.

SOCIALIZATION OF MEDICINE IS TOPIC STUDIED

Political Economy Club Is the Locale

TWO PAPERS PRESENTED

Doctor Grant Fleming Leads Popular Discussion by Members

Economics and medical students got together last night at a meeting of the Political Economy Club, in a discussion of the socialization of medicine. Stewart Willis presided at the meeting and introduced the speakers of the evening: John Randolph, honour student in economics, and Richard Galvin, second year medical student, and Dr. Grant Fleming of the Faculty of Medicine, who led the discussion that followed.

John Randolph compared the high mortality rate among expectant mothers and the prevalence of venereal disease in Canada with that in other countries. In Sweden, he claimed, remarkably low venereal disease had its beginning when national legislation providing for free treatment was passed.

Socialization of medicine in Sweden has proved very efficient and laws for enforcing doctors' (Continued on Page Four)

ACTORS' CLUB TO DO PLAY - READING

Group Will Have Initial Meeting of Series in Union Today

The McGill Players' Club will inaugurate the first of a series of play-reading groups today at 4.30. The meeting will be held in the Players' Clubroom of the McGill Union and all those desirous of participating are asked to be there on time.

The group will meet weekly under the direction of leaders experienced in the handling of this type of club. Members of the club and interested students will have the opportunity to read and discuss various plays, and to acquire a deeper insight of the finer details and intricacies of the plays. Everybody will be given a chance to read different styles of roles in both leading and secondary parts.

The group which is scheduled to meet today will be headed by Helene L'Esperance and David Ashdown. The former will be best remembered for her performance in Ibsen's "Wild Duck" and "Richard of Bordeaux." David Ashdown has demonstrated his experience in such roles as the very dramatic King Richard the Second and the lead in the comedy "French Without Tears." He also starred in last year's production of "Russet Mantle."

The executive of the Players' Club believes that this new field of endeavor will prove valuable to participants in that they will gain a great deal of experience in diction, enunciation and building up characterization. The groups will be kept small to insure that all gain the maximum benefit possible. The club, furthermore, wishes to stress that everyone is welcome no matter how little they have done in this field before, since these group meetings will be kept on a very informal basis.

Union House Informal To-morrow at 9 P.M.

The third of the Union House Informals will be held tomorrow night at 9 p.m. Blake Sewell and his Band will provide the music and they will play all the request numbers to add special enjoyment to dancing. And as these dancers have proved to be very popular tickets which are available in the Union Tuck-shop should be purchased as soon as possible, stated a Union official last night.

Refreshments will be served throughout the dance at a low price in the Union Cafeteria. Union officials expect the dance to be very well attended as that dance will be the last Informal before the Prom.

COMMERCE END PRELIMINARIES

Second Debate Stresses Necessity of Efficient Education

Opportunities in Commercial Life Now and in the Past Discussed by Students

"Resolved that there are fewer opportunities for one to rise in commercial life today, than there were fifty years ago," was the topic of the second commerce debate of the year which was held in Room 13 of the Arts Building yesterday afternoon at 4 o'clock.

The affirmative side was upheld by the following 1st year students: L. Manolson, E. W. Beaton and D. Gray. The third year students supporting the negative side were P. Renault, J. Toller and E. Skutesky. B. J. Firestone and Frank Norman were representatives of fourth year.

Those on the affirmative side claimed that fifty years ago the Canadian industry was young and developing rapidly. New fields were appearing which afforded many men the possibility for employment and advance. The C.P.R. railways had just been completed, opening the Northwest territories and with it mining began. Industrially, the automobile and the telephone industries were growing rapidly, affording opportunities to unlimited numbers of men. Today, on the other hand, they claimed, the machine age has created the demand for mass production, and with it the requirement of quantity rather than quality. The amount (Continued on Page Four)

DR. BONN EXPLAINS HITLER'S THEORIES

Outlines the History of Universalism and Its End with the Racial Theories

Dr. Bonn held a lecture last night on the subject of the new nationalism as shown by the tendencies of Hitler and the racial policy of the German People which he said must necessarily lead to a domination of the whole world by the German people and the German idea.

Dr. Bonn outlined the development of universalism during the course of history commencing with the universal distribution of feudalism before the renaissance. After this, with the development of science followed the universalism introduced by it. As an illustration Dr. Bonn used the fact that in any factory from Vladivostok to Cape Colony the same machines and appliances are in use. In the period shortly before the great war universalism was even making itself felt in religion, the dogmatism giving way to the ethical element. In the present world order there is no form of Universalism because there are two great opposing systems in the present setup—Capitalism contrasts with Communism and Fascism contrasts with Democracy. There is no use denying Bolshevism, because it is an actual fact in Russia. But it could not work in a Western, industrialized community, he said.

Further the lecturer proceeded to outline the forces constituting nationalism. Nationalism is not a characteristic that could be acquired, a (Continued on Page Four)

MCGILL STUDENT WINS PRIZE AT STUDENT NIGHT

Griffin Second to Ecole Polytechnique Student

FOUR PAPERS READ

Winner Discusses 'Utilization and Disposal of Cannery Wastes'

Last night the annual Student Night was presented by the Montreal Branch of the Engineering Institute of Canada, in conjunction with the Junior Section of the Institute. The meeting included the reading of four papers by students of McGill University and L'Ecole Polytechnique and the showing of a moving picture on "Liquid Air."

The four papers presented were selected from a considerable number submitted by engineering students of McGill and L'Ecole Polytechnique. Of these, the two best papers were selected by an adjudicatory committee consisting of three prominent local engineers. They were awarded prizes of fifteen and ten dollars. In addition, all four students presenting papers were granted a year's subscription to the Engineering Journal and a Student Membership in the Institute.

McGill Student Second. Bernard Beaupre, S.E.I.C., of L'Ecole Polytechnique, who spoke on "The Utilization and Disposal of Cannery Wastes" was awarded first prize by the judges, and V. O. Griffin, of McGill, who spoke on "The Manufacture of Modern Refrigerators," the second prize. Dr. Arthur Surveyor, Mr. E. P. Muntz and Mr. Paul Poitras comprised the committee of judges.

The first speaker of the evening was V. O. Griffin of McGill. He gave a detailed account of the construction and operation of a modern refrigerator, and also discussed its general utility and its development through various degrees of (Continued on Page Four)

DR. ROSCOE SPEAKS TO SENIORS TO-NIGHT

Dr. Roscoe, Warden of R.V.C., will speak to a gathering of all Senior Women students to-night at 8 p.m. in the R.V.C. reading room. This is the first of a series of social evenings to be held throughout the session for all co-eds in fourth year Arts, Science and Commerce.

Bridge and other forms of entertainment have been arranged by the class executive. They have also suggested that girls bring Red Cross knitting to the meeting. Refreshments will be served.

The executive feel that these

Economists Refuse to Submit To Womanly Wiles of Co-eds

By B.J.F.

Well, the co-eds were thrown for a loss again in their annual assault on that holy of holies, The Political Economy Club. The girls didn't even do as well as they did last year, netting only four timid votes from forty men present. Last year they earned the support of 18 members. However the lassies need take no offence, in fact they might even feel that their rejection is a sort of backhanded compliment, as the members did not attack women's ability, knowledge, or seriousness. (Suffragettes may now relax—there's nothing to fight about.) In fact the economists felt that the women would be too good an influence; that they could not relax and enjoy their beer in a truly male style. One well-brought-up economist even said that he could not drink beer in the presence of the fairer sex. We only had cokes, but the point remains.

So the R.V.C.ites may take

Psychological Society To Hear Psychiatrist

Dr. Mitchell of the Mental Hygiene Institute will address the Psychological Society in the Union Grill Room, on Monday November 25, at 8 p.m. The topic to be treated is "Personality Integration."

In approaching this problem, Dr. Mitchell draws upon a particularly rich background. After graduating from the University of Toronto in Education, and then in Medicine, he spent an internship at Phipps' Psychiatric Clinic. Immediately following the first Great War he was appointed chief psychiatrist in the Soldiers' Civil Re-establishment project. Dr. Mitchell is at the present the Director of the Mental Hygiene Institute and Associate Professor of Psychiatry in the Medical School, McGill University.

A member of the executive of the Psychological Society stated that integration might be said to be one of the basic aspects of the "growth of personality."

RVC PRESENTS BUFFET SUPPER

Dr. Roscoe Invited to Address Students

Entertainment Provided by Clubs of the Women's Union

The Annual Buffet Supper will be held this year in the Upper Hall of R.V.C. on Tuesday, November 26 at 6.30 p.m. Dr. Roscoe has been invited to attend and to say a few words to the students gathered there. Mrs. James, who will be unable to attend, the R.V.C. Resident Staff, the Physical Education Staff, Mrs. Murray, Miss Heasley, the R.V.C. Librarian, and the last year's Women's Union Executive, are among those guests invited to attend.

Frances Cox will be mistress of ceremonies for the skits and Margery Gaunt, President of the Women's Union, will preside over the remainder of the evening's entertainment. Entertainment will be provided by the numerous clubs of the Women's Union; it will take the form of skits.

Red Wings will be in attendance at the supper. Tickets may be obtained from class officers, and co-eds are advised to get their's as soon as possible, stated a member of the executive last night, because the supply is limited. Only partials who have paid their Women's Union fee may be permitted to buy tickets for the Supper.

social gatherings will afford a pleasant opportunity for the R.V.C. seniors to meet as a class, and have expressed the hope that as many fourth year co-eds as possible will attend. The continuation of the series will depend on the success of the evening, stated a member of the executive last night.

NOMINATIONS TO STUDENTS' COUNCIL, SCARLET KEY AND RED WINGS SOCIETY ISSUED

RACE DISCUSSED AT COSMOS' EVE

Club's President Presents Program for Coming Season

Prof. LaViolette Says Research Necessary to Find Errors of Problem

Professor Forrest LaViolette, who last night addressed the Cosmopolitan Club on "Research on Race Relations" emphasized the importance of such research at the present time. "Practical programs tend to arise from these studies which go a long way in developing unity in our society," he said, "and the results have an important influence in overcoming the idea that race plays an important part in maintaining and diffusing culture. Another contribution is in the field of personality, by the study of social attitudes."

Research.

Professor LaViolette continued to explain that the term "race" is a biological concept and that there are no "pure" races. "Research in this problem is comparatively new, having been begun by the French in the early nineteenth century. It is restricted to areas where there is a difficult race problem, as that of the negroes in the U.S.A., and the Boers in South Africa." The speaker also used the book on the American Negro, entitled "Caste and Class in a Southern Town," to illustrate particular trends in present research.

Professor LaViolette was introduced by Eric James, President of the Club, and Cecily Greer, Secretary, proposed a vote of thanks. Following a short discussion period the president announced the club's program for the year. This consists of a travelogue of "Country Life in the U.S.," within a few weeks. A Yuletide Prom before Christmas, a skating party in January and a Masquerade Dance in February. Stuart Jamieson was Chairman of the meeting.

MCGILL GLEE CLUB CHANGES PROGRAM

Joint Practices With R.V.C. Club to Be Inaugurated

The executive of the Men's Glee Club has announced a temporary change of policy which is to cope with the present difficulties due to all the activities of war-time McGill. Energies of the members will be turned to the formation of a male double quartette, which will carry on the best traditions of the club, with selections of light music such as sea shanties and Negro spirituals. In addition, joint practices with the R.V.C. Glee Club are to be inaugurated today, to which all male voices will be welcomed. The mixed chorus is to carry on with monthly practices, which, it is felt, will be well within the scope of a large number otherwise prevented from attendance.

The president yesterday asked the cooperation of all interested, and especially appealed for tenor voices. He stated that an invitation has been received from the Coordinating Committee of Auxiliary Services of M.D. No. 4 to contribute to entertainment of troops. A programme of such a kind had already been decided, depending on the interest and material offered by glee club members themselves.

The McGill Glee Club carries on. The time: 5.00 p.m. The place: Union Music Room.

R.V.C. '43.

The R.V.C. '43 class picture will be taken on the steps of the Arts Building at 1 p.m. on Wednesday, November 27.

DEADLINE FOR FORGE POSTPONED TO 28TH

The dead-line for handing in all material for "The Forge", McGill's only literary magazine, has been changed from Nov. 20th to Nov. 28th the Editor announced last night. The reason for this postponement is that the material so far received is not sufficient to fall in with the editorial policy of being a magazine representative of the entire university.

Although a great many contributions have been submitted, Katherine Aikens, editor-in-chief, said that many more, especially fiction and prose, were needed. Unless a wider range of material is forthcoming the publication of the magazine will probably be postponed until after Christmas which will eliminate the possibility of a second issue later in the year. The new cover of "The Forge" has not been definitely decided on as yet, though several designs have been submitted. Anyone who is interested in designing a cover may receive further information from: Susan O'Reilly at R.V.C.

U OF M PARADE WILL BE HELD

Students and Guests Will March Tomorrow

Premier Godbout and Principal James to Speak; New Buildings to Be Inspected

Tomorrow afternoon, the University of Montreal will hold a special Visiting Day. A parade will feature the event and students and a number of prominent men will be present, including Mr. Adolphe Godbout, Prime Minister of Quebec, and Dr. F. Cyril James, Principal of McGill.

In addition to the prime minister and Dr. James, speakers will include Mr. Paul Dozois, president of La Chambre de Commerce des Jeunes de District de Montreal; and Hon. Henri Groulx, recently elected member to the provincial legislature. The University will be represented among the speakers by Msgr. Olivier Marault, Rector; Mr. Arthur Vallee, K.C., president of the Administrative Council, and George Lachaine, president of the Students' Union.

Parade Begins at 2.

The parade of students will begin at 2 o'clock at the former University buildings on St. Denis St., and will proceed to the new quarters on Maplewood. The public will be admitted to the new buildings at 3 o'clock, and a hundred students will act as guides for the various tours. The hope has been expressed that a great number of McGill students will be at the affair, since it is believed that this will afford an excellent opportunity for both universities to demonstrate the "Bonne Entente" existing between them.

The object of this Visiting Day is to arouse public interest and get support for the campaign under way for the completion of the buildings.

Around the Campus

Today: The meeting of the Players Club this afternoon at 4.30 at which different plays will be read. . . All co-eds of '41 are called to the social at R.V.C. tonight. The time is 8.00 p.m. Dr. Roscoe will address the meeting there.

Tomorrow: Swing fans will mark the informal at the Union tonight, Blake Sewell to preside. . . I.V.C.F. Fireside will feature Dr. Hill as speaker. . . At the University of Montreal there is "Visiting Day."

Monday: Men's Historical Club meeting at 8.15 p.m.; Mr. Clive van Cardinal will speak. The subject is "Medieval Mysticism." . . Also the Psychological Society meeting.

In the Future: R.V.C. Buffet Supper at 6.30 p.m. on Tuesday. Skits sponsored by members of Women's Union Clubs. . . Don't forget the postponed Junior Prom—make that date December 13—price to be \$4.00. Place: the Gym. . . The band desires more members. . . So long!

86 NAMES RECEIVED

18 Candidates Less Than Last Year

ELECTIONS DEC. 3

C. H. Powles, A. Danforth, B. Powell, A. C. Lewis and J. Curry Elected by Acclamation

Eighty-six names have been received for office in the Students' Council, the Scarlet Key, and the Red Wings Society, it was announced last night. Out of these, thirty-six will be chosen to hold office after the election of December 3 takes place. In the Scarlet Key Society, those proceeding to the final year of their faculties are eligible for Group 'A' while the Sophomore year candidates go into Group 'B'. The Students' Executive Council has one member from the Junior year from each faculty and R.V.C.

A list follows of the candidates for the Student's Council, Arts and Science: Thomas C. Mulligan, F. William Long, Howard M. Patch, Harrison Bennett; Commerce: Richard H. Stevenson, Walter F. Johnson; Engineering: Alec Glen, Robert A. Reid, Norman F. Retzlack, Thomas C. Daly; Law: Lawrence G. McDougall, Albert O. Gadois, Gordon Donnelly, George F. Clarke, Walter B. Miller, Graham Gould; Medicine: E. A. Stewart Reid, Herbert F. Owen; Royal Victoria College: Louise Astbury, Mary Eddy, Judith Jaffe, Beatrice M. Moreau, Sylvia Grove. The candidates from Dentistry and Theology, Albert Danforth and Cyril H. Powles, were elected by acclamation.

Group 'A' Scarlet Key Society. Architecture appointed Anthony C. Lewis to the Society by acclamation. Arts and Science: Kevin L. Hargadon, Arthur R. Jardine, Gordon K. Greaves, F. Donald Smith, George N. Swinton, Vincent Young; Commerce: Earl H. Smith, Jack H. Bailey, Albert C. Briggs, Bruce Russell, Peter Sandilands, T. L. Chown; Dentistry: Albert L. Danforth, John Hibbard; Engineering: David Haviland, Thomas C. Daly, Allen C. Findlay, W. T. Simpson, R. F. Stapells, D. G. Rowe, G. Stenning, R. Holden, W. L. W. Taylor; Law: Albert O. Gadois, Edward Jack Martin, Allen J. L. Mills, Lawrence G. McDougall; Medicine: W. F. A. Davies, Kenneth Campbell, Grant Donnelly, John Hermann, J. H. Graham.

Group 'B' Scarlet Key. Those nominated for Group 'B' of the Scarlet Key Society include the following—Arts and Science: Raymond G. Rose, Alex Scrimger, Robert R. Kingsland; Commerce: J. H. Reckett, J. K. Power, R. Allan, T. L. Davies; Dentistry: Charles H. Dundas, Ralph S. Edmison, Frank L. Burns; Engineering: George E. Backer, James B. Anderson, Alwyn King, Peter Hall, John R. Ufford, Gerald Leonard, John Dall, Charles Perrault, James D. Anderson, Justin O. Miller; Medicine: William K. Macdonald, Frank W. Cleary, Bruce Fletcher, Hubert Borsman, Frank Leckie, Ronald M. Fyfe.

Red Wing Nominations. Nominations for the Red Wings Society include the following: First Year, Resident: Billy Powell; Non-Resident: (Continued on Page Four)

calling all co-eds

by winnifred

Much to everyone's delight the idea of the Intercollegiate Telegraphic Swimming meet has met with approval. The meet will be held in the very near future, and so Margaret MacKay, the swimming manager who has so ably taken over the helm, will no doubt be putting all the effort possible into the formation of a speed squad.

The first meeting of the swimming club will be held on Wednesday evening the 27th of November in the Knights of Columbus pool, at 8.30 p.m. The co-eds were indeed very fortunate in securing the use of this excellent pool, and it is hoped that the swimming enthusiasts will take full advantage of the facilities offered.

Miss Helen Mackay, swimming coach of the Y.W.C.A., will be on hand to give the girls any pointers they might need. All co-eds are welcome as it is not necessary to be an expert to join this gathering; the chief requisite is enthusiasm. So come one and come all! and make this new club a success!

Wednesday night a very successful meeting was held by the McGill Outing Club when some excellent pictures were shown. Unfortunately the meeting was not graced by the presence of the co-eds as they were busy with their St. John's Ambulance. However, at ten o'clock the films were shown again for the benefit of the co-eds, many of whom were present.

Although this is the first outward sign of activity in the Co-ed Ski Club, the executive under the able management of Sylvia Grove has been burning the midnight oil figuring out a program for the coming season.

George Swinton will once more take over the direction of the indoor skiing classes which will be held in the R.V.C. gymnasium and will commence on Thursday, December 5, at 4 p.m. This year there will be three classes in all, the second and third being on the 12th and 19th. A list will be posted very soon in R.V.C. and all co-eds who wish to profit from Mr. Swinton's valuable skiing experience are urged to turn out. It is hoped that many who signed up for the Physical Education Ski classes will wish to avail themselves of this opportunity. The three classes will go under the name of Dry skiing and will cover all the fundamental points of the art. All intending to take part are assured that this instruction will put you in fine fettle!

Following Christmas there will be the regular outdoor weekly classes which will take place on Mount Royal for Beginners and Intermediates. This is to get the girls in trim for the informal ski meets which will be held in the vicinity of St. Adele. These gatherings are to be held to encourage those who have never taken part in a race before. On these excursions full use will be made of the R.V.C. Ski House.

During the coming season the R.V.C. Ski Club will co-operate with the McGill Outing Club in week-end meets up north, and (Continued on Page Four)

FOOTBALL MEN TO END SEASON WITH BANQUET

Will Be Held Next Wednesday at Union

DOLLAR ADMITTANCE

Anyone Who Played on the Teams May Attend

A football banquet to end the successful gridiron season will be held next Wednesday evening in the Union. It is not for the Airmen alone; anyone who played on one of the teams may come to this last kick-off of the season for one dollar. There will be no bewildering plays as the game, it is rumoured, is scheduled to start with a swift entree down an empty field, to be followed immediately with a forward pass to either one of the turkey wings. As it has been pointed out that there have been no general workouts since some time last week and that therefore the players will be somewhat out of training, the water boys have been ordered to remain on the scene throughout the game.

Despite the postponement of Inter-Collegiate football for the "duration," this banquet will be a fitting close to the enthusiastic games played between teams composed entirely of Redmen.

Doug Kerr's first thought of the season was the formation of company squads, but as this met with little success, the players who turned out to the first practices were divided as evenly as possible into three teams representing the three services. The schedule for these squads called for two games a week and allowed each of these teams to play one another twice before the playoffs. Unfortunately one of the teams, the Army, was seldom able to hold its own and ended at the bottom of the league which, as if in keeping with the trend of the war, found the Airforce on top and the Navy just behind it.

Highly pleased with the enthusiasm in the season and the number of worthy players it produced, the chief coach summed the football year up by forming two so-called dream teams of the men whom he considered good enough to play on a McGill Senior Inter-Collegiate squad. These teams are as follows:

Pare.....flying wing.....Smith
Keay.....halfback.....Read
Oumet.....halfback.....Rapelje
Johnson.....halfback.....Stronach
Stronach.....quarterback.....Byington
Peacock.....snapback.....Madill
Winer.....inside wing.....Smbert
Davies.....inside wing.....Young
Simpson.....middle wing.....Carroll
Robinson.....middlewing.....McDonald
Hall.....outside wing.....McPherson
Gibson.....outside wing.....Young

WEIGHT-LIFTING SHOW TONIGHT IN MCGILL GYM

Exhibition Will Commence at 8 P.M.

TO TRY FOR RECORDS

Display Will Be Held on Double Squash Court

Tonight is the night! Commencing at 8.00 p.m. sharp, Canada's Strong Men will take the limelight at the Sir Arthur Currie Memorial Gymnasium. Some ten or fifteen strong, these Lifters represent the Verdun Lifting Club, the Sun Life Lifting Club and the Central Y.M.C.A. All are prominent throughout the city and at least five hold Provincial or Dominion Championships.

With the lads will come three of the best Coaches in the country in Charlie Walker, Harvey Hill and Bill Kennedy. All old-time lifters of note these men will not only officiate at the sanctioned attempt at breaking the Canadian records but will also give a demonstration of various lifts and body-building exercises. With them will be younger exponents of the Art of 'Iron-Pushing' who will assist in the demonstrations.

TEAM COMPETITION.

A highlight of the evening will be the competition between two teams of four men apiece all of whom will be doing their best to set new Canadian records. All McGill 'Herbies' be they big or small are cordially invited to be present to witness this outstanding display. Those who intend to take up the game are particularly urged to be present.

A slight change in location has been necessitated by virtue of the fact that the C.O.T.C. has taken over both the Main Gymnasium and the B.W. and F. Room on Friday Night. The competition originally planned for one or other of the aforementioned places is now to be held in the Double Squash Court. A special platform is to be laid for the Lifters and seats will be placed within the court for spectators. If necessary seats will also be placed on the upper gallery so that there will be ample accommodation for all.

MANY ABSENTEES FROM VOLLEYBALL

Two Games Lost by Default —Macdonald Play Well

The matter of absentees from the inter-plateau volleyball league has reached a state in which the athletic management has decided to take serious steps.

If a plateau has not its complete team on the floor it is allowed to continue its game provided it can borrow the required number of players; however, for each player missing the plateau loses three points; thus they enter the contest with a three point deficit, for each man missing. Sports representatives should see that a full team puts in an appearance as every point means a lot in the final score.

CO-OPERATION NEEDED.

Too many platoons have been disqualified so far this season because of lack of players. Members (Continued on Page Four)

Independents are reminded that they must have a medical examination before participation in any competitive sport. A Five Dollar fine and suspension from competition is the penalty for non-fulfilment of this requirement.

Hockey practices are as follows:

Tuesdays at 12.30 until 1.30 p.m.—"A" and "C" Companies.
Thursdays at 12.30 until 1.30 p.m.—"B" and "E" Companies.
Fridays at 12.30 until 1.30 p.m.—"D" and "F" Companies.

Any Independent wishing to play may turn out at the most convenient period for him and these men will be assigned to one of the company teams. In addition, second teams will be formed in each of the companies in another league which will be run off on the Campus Rink with play-offs at the Forum and any men wishing to "make" these teams are requested to inform their Company representative, this applies also to the "Independents."

VOLLEY BALL LEAGUE

The Volley Ball Schedule for next week is as follows:

Wednesday, Nov. 27th

| | |
|-----------|---------------------------------------|
| 5.00 p.m. | Platoon No. 18 vs. Platoon No. 13 |
| 5.00 p.m. | Platoon No. 19 vs. Platoon No. 14 |
| 5.00 p.m. | Platoon No. 27 vs. Platoon No. 15 |
| 5.00 p.m. | Platoon No. 16 vs. Platoon No. 11 |
| 6.00 p.m. | Platoon No. 5 vs. Independents No. 2 |
| 6.00 p.m. | Platoon No. 22 vs. Independents No. 4 |
| 6.00 p.m. | Platoon No. 10 vs. Platoon No. 24 |
| 6.00 p.m. | Platoon No. 7 vs. Platoon No. 17 |

Thursday, Nov. 28th

| | |
|-----------|------------------------------------|
| 5.00 p.m. | Platoon No. 17 vs. Platoon No. 12 |
| 5.00 p.m. | Platoon No. 9 vs. Platoon No. 4 |
| 5.00 p.m. | Platoon No. 8 vs. Platoon No. 18 |
| 6.00 p.m. | Platoon No. 10 vs. Macdonald No. 1 |
| 6.00 p.m. | Platoon No. 20 vs. Macdonald No. 2 |
| 6.00 p.m. | Platoon No. 28 vs. Platoon No. 23 |

Note: For the Volley Ball only, Independents No. 2 will consist of Meds. I and Meds. II who are not participating in the M.R.T.B. Independents No. 4 are made up of Meds. III and Meds. IV. All other Independents who wish to play Volley Ball are asked to get in touch with the Sports Representative of either of the above two sections.

SPORTS PROGRAM

BOXING

Tuesday, 6.00—7.00; Thursday, 6.00—7.00; Saturday, 4.00—5.00.

WRESTLING

Monday, 6.00—7.00; Wednesday, 6.00—7.00; Friday, 6.00—7.00.

FENCING

Tuesday, 8.00—9.00; Friday, 6.00—7.00.

WEIGHT LIFTING

Monday, 6.00—7.00; Friday, 6.00—7.00.

MCGILL SKIERS SCHEDULED FOR ACTIVE SEASON

Possibility of Ski Patrol for McGill Battalion

CLUB TUNOUT LARGE

Lengthy Ski Tour Through the Laurentians Planned

Although there will be no Inter-Collegiate competition this winter, there is plenty of evidence that the McGill skiers will have an active season. In conjunction with the McGill Reserve Training Battalion there is the possibility that there will be a ski-patrol formed.

Judging by the huge turnout presided over by Lorne Lindsay at the McGill Outing Club Wednesday night, more than a hundred skiers attending, this year will see the formation of the biggest club yet experienced by the Redmen.

GOOD SKI PROGRAM

A lengthy program of events scheduled for the first three months of 1941 will cater to all types of skiers and is evidently designed to bring new figures to the fore. The competitive side of the program will get under way on the 19th of January when a downhill and jumping event will be held at St. Sauveur but it is extremely likely that the ski fans will plan events prior to that date. With a clubhouse secured at St. Sauveur at the foot of Hill 70, the veterans of last year plus this year's newcomers will have an opportunity to brush up on their technique close to their quarters.

The suggestion that a ski patrol be formed for the M.R.T.B. has been received with such great enthusiasm that it is expected that McGill will be far in the van as far as Inter-Collegiate activities in this direction are concerned.

TOURS ARRANGED

Ski tours will again be embarked upon this winter by way of further expansion of a feature that proved very popular last season. A highlight in this direction will be a tour right through the Laurentians range from March 1 to 4 with overnight stops arranged.

An attractive innovation, which will probably provide no end of interest, will be the event of February 23 at St. Sauveur, which will take the form of a mass slalom and downhill with teams of 30 men and five women competing.

The McGill Outing Club Calendar follows:

January 19—Downhill and jumping at St. Sauveur; January 26—Cross country and slalom.

February 2—Ski tour for A and B classes; February 6 or 7—Park slide night on Mount Royal; February 9—Fox and Hounds; February 16—Ski Tour; February 23—Teams of 30 men and five women in downhill and slalom.

March 1 to 4—Long Ski Tour; March 9—Slalom and cross country; March 16—Slalom and jumping.

CHAMPION HELPS BOXERS TRAINING

Workouts Well Attended — Competitions May Be Staged Before Christmas

In an interview last night Boxing Coach Bert Light expressed great satisfaction at the way the workouts were going. He said that there had been an excellent turnout for each of

Poor Turnout In All Sports At New Gym

Splendid Facilities Should Be Used Often

by Dip

McGill University, long lacking proper and exclusive gymnasium and athletic facilities, was very fortunate, everyone will agree, when the present Sir Arthur Currie Memorial gymnasium was erected below the stadium.

There are many well equipped gyms throughout the country in colleges and out of them, but our own building is one of the finest pieces of architecture as well as one of the best athletic centres in Canada.

POOR ATTENDANCE

Perhaps we students can be compared to a child who, before he has his toy, needs it very badly but once it is in his hands finds no use for it. At any rate the gym up to the present has not been used as much as it might have been. Turnouts for all games and activities have been quite poor.

Fencing classes have not been well attended as yet. George Tulley, coach of this activity is an authority on the sport and has represented the art skillfully many times. He was successful in winning the Canadian Championships in foil, epee and sabre two years running. Equipment has been supplied by the authorities to all those interested in the sport and many more are asked to appear on the scene. A practice will be held tonight from six to seven and a larger group than has been the custom is hoped for.

Basketball and volleyball turnouts have been mentioned elsewhere but too much can not be said about them.

POINTS LOST

More than a few platoons have lost points for their companies by poor turnouts for their scheduled games. Some platoons will find themselves with a negative score instead of one on the right side of the line. They are not only ruining their own reputation but are letting down their whole company.

them and that last night's 40 was about average.

Tommy Osborne, former Canadian Amateur Heavyweight Champion, has been assisting at the punching-practices and will be there again on Saturday at 4 o'clock to help Bert get the fighters into trim. Tommy Osborne turned professional recently after a notable career as an amateur during which he competed successfully at the Empire Games and also effectively defended his Heavyweight Title.

Pointing out that most of the class was welter- and middle-weight, Bert Light said in conclusion that he hoped to be able to organize a series of competitions before Christmas.

SPORTS TODAY

Basketball:

pany as well. Many players can testify to the invigorating games played on the new floor and should encourage larger turnouts.

The squash courts are in regular use as are the badminton and many interesting games have been arranged.

Boxing and wrestling could certainly stand a bit of a boost in population and show Bert Light some signs of co-operation.

This gym is yours. Beautiful showers, lockers and an abundance of equipment are features of it. While you still have a chance to use its facilities you should do so.

SOCIALIZATION OF MEDICINE IS TOPIC STUDIED

(Continued from Page One)

orders have been provided. The speaker said that in this country, for every \$29 spent in curing diseases, \$1 only was spent in preventive medicine, and claimed that under socialized medicine a more rational proportion could be maintained and treatment provided where required.

Alma of Specialized Medicine. Richard Galvin began by specifying the aims of socialized medicine as the procurement of medical care to the greatest number at the lowest cost. He claimed that actually 25 per cent. of the people of Canada were unable to procure themselves adequate medical services, and that under the present system, the cost of free medical care to the indigent fell too heavily on either the doctor, or the well-to-do patient. However, socialization of medicine to be desirable, must safeguard the quality of medical service, must meet the needs of all people, must be preventive in character and must provide adequate remuneration for the practitioners. The medical profession as a whole, recognizes the defects of the present system but must be convinced that socialization would be better.

Dr. Grant Fleming in opening the discussion that followed, brought attention to the danger of comparing conditions in one country against those in another in different circumstances. He also said that despite opinions to the contrary treatment of venereal disease in Ontario was more efficient than in Sweden. In concluding he mentioned the necessity of keeping a check on doctors after they have been licensed to practice.

Notices

Lost.

Mechanical pencil—four-in-one, coloured leads; Monel (white) metal. Lost on Friday noon. Please return to Edward W. Walcott, W.A. 6442.

Lost.

On last Friday evening, a Sheafier fountain pen probably in the Redpath library or somewhere on Carlton Road. Will finder please return to Bill Gendeman's office in the Arts Building, or call A. G. Clark at Douglas Hall, BE. 2865.

Lost.

A blue loose-leaf containing chemistry notes was accidentally exchanged for a similar notebook with engineering notes at Tuesday's parade in the cloakroom of the armory. Will the owner please see Fred Barton in the Engineering Building.

Lost.

K. and E. Polyphase Duplex Slide Rule, with owner's name on case, in Physics Building, between 3 and 6.30 Monday, November 18. Finder please leave at Fred Barton's office in the Engineering Building, or call Don McLeod, EL. 2325.

Found.

A loose-leaf notebook with a zipper and the name G. Douglas Armstrong on the lower right-hand corner. It was left at the Stadium Tuesday and has since disappeared. Finder please leave at the Union Tuck Shop.

Found.

Green fountain pen on the steps of the Engineering Building. Owner will find same in Fred Barton's office.

Found.

On University Street a wrist-watch, owner may identify it by getting in touch with Miss E. A. Jones, Med. 1, Med. Bldg., or phone MA. 2928.

Found.

A slide-rule, corner of Sherbrooke and Clarendon Ave. on Wednesday night. Owner may claim same by phoning Miss McLean, MA. 7794.

Glee Club.

A joint meeting of the McGill and R.V.C. Glee Clubs will be held under the leadership of Mr. Harry Norris in the Union Music Room at 6.00 p.m. today. The music and training offered are interesting; a full turnout is invited. Tenors are especially in demand. No previous experience is required.

Notice.

A regular meeting of the Men's Historical Club will be held on Monday, November 25th, at 8.15 p.m. at the home of Dr. C. C. Bayley, 3586 Durocher St., Apt. 2. Mr. Clive von Cardinal will speak on "Medieval Mysticism."

Royal Society of Canada

Fellowships. Fellowships at \$1,500 each will be awarded in 1941 by the Royal Society of Canada, eligible for Canadians who have done advanced work in any branch of Science or Literature. Regulations and forms may be obtained from the undersigned. Applications and all supporting papers must be in the hands of the Secretary not later than February 1st, 1941.

Y.M.C.A. Boys' Club Leaders.

Voluntary leaders are needed for work with underprivileged boys at the Central Y, either on gym floor, or swimming pool, or in clubs. Time: Friday evenings for about one hour. Phone Andy Kelen at LA. 7647.

WHAT EVERY FRESHMAN SHOULD KNOW

There is a lot of wholesome advice to freshmen—and to undergraduates generally—in an article in the November issue of *The American Mercury* under the provocative title "What Every Freshman Should Know." It is written by Dr. Roger W. Holmes, Associate Professor of Philosophy at Mt. Holyoke College, and here is a boil-down of some of his advice:

Don't study too hard—there is such a thing as overdoing it. Bear in mind that classes are not the most important part of a college education.

Remember that marks are a hit-and-miss method of measurement and don't take them too seriously. Dismiss the notion that your academic record as an undergraduate will make or break your life—it just ain't so.

Don't believe everything your professors tell you.

But along with the "don'ts" which Dr. Holmes develops in detail, he gives a lot of "do's," including some sound common-sense advice on what courses to take and why.

calling all co-eds

by winnifred

(Continued from Page Three)

rumour has it that ski tours may take place once more this year.

The results of the Intercollegiate Telegraphic Archery Tournament which took place last month has been received and although R.V.C. did improve upon their last year's score they only succeeded in capturing third place. Of the colleges that actually completed their journey Margaret Eaton School of Physical Education once more walked off with top honours, marking up a score of 1,957; Ontario Ladies College came second with 1,313 while McGill had 971 in third place. Alma College marked up 929 placing fourth and last. This year due to bad weather conditions it was impossible to obtain results from all the colleges.

Squash practices are still going on, and all co-eds who are interested are urged to turn out to the gathering on Tuesday from 2-4 p.m. when Mr. Ted Greene will give some very valuable instruction on the finer points of the game. Co-eds who already know something about playing squash may have the opportunity of trying out their knowledge every Friday afternoon, as this period is one for practice and not for instruction.

If a sufficient number of co-eds know how to play the game after Christmas Betty Brodie, manager, hopes to hold a tourney. But the prerequisite of such an event is a knowledge of squash. It is hoped that a large number of co-eds will take advantage of the opportunity that is being offered to them.

Comes now a bit of news for all co-eds who intend to do active rushing in Sadie Hawkins week. The M.W.S.A. is going to sponsor the Sadie Slide once more. This event was held for the first time last year, and in spite of all the hard work the co-eds had to do—or did they—they were very enthusiastic about holding it again. It will be held during Sadie Hawkins week at the end of January.

MANY ABSENTEES FROM VOLLEYBALL

(Continued from Page Three)

of the platoons should realize what their absence means. A disqualified team losing five points can cause a backslide in the point total of its company. A few men can ruin the standing of the company in which they are registered. Co-operation is needed.

Last night's scores read as follows: Platoon 6 won by default over 16 as did 7 over platoon 2. Number 8 defeated 3, 15-4, 15-8 and platoon 19 beat 9, 15-11, 13-15, 15-7. McDonald 1 beat platoon 24 by a score of 15-8, 15-5. Mac 2 receiving a nine point lead in each game because their opponents had to borrow three men, won out by scores of 21-4, 21-10. Both McDon-

aid teams played excellent ball and individual stars were numerous.

DR. BONN EXPLAINS HITLER'S THEORIES

(Continued from Page One)

South African can not become a German, even though he learns to imitate the speech and manners of that people. Only in some cases of French colonization this could be carried out.

The first outburst of German nationalism came after the French revolution as reaction to the stream of French literature and ideas that flowed into the country. After that time the French had the idea that they should carry their ideas into all the world. They could impress them on the Czechs and the Poles, but not on Germany or Spain, which were never really subjugated, Dr. Bonn stated.

The new nationalism of Hitler is based mainly on a biological basis, not a cultural or literary. The foundation of the ideas of Hitler can be found in the Revolutionary movement of 1848, especially in a paper written by a Hungarian of that time, who had the same theories of racial purity. Hitler's ideas are based on the prevalent Darwinistic theories of the time. His theory is that force is a function of matter, and mind is a type of force, therefore force is a function of mind. Here lies the danger of the doctrine, because the German people, placid in times of peace become easily excited on a nationalistic basis. According to this doctrine the German race and culture is the best in the world and as there is no room in Germany, it must expand at any

cost, if possible in peace, otherwise by war. Because of the superiority of the German culture, all other people should adopt or imitate it. But the English and other people will never agree to this and therefore this is a war to the end.

The foundations of this war were really started at the beginning of the last. If there would have come no war in 1914, universalism and world peace would have triumphed. "The first war started at 11.55," said Dr. Bonn. Now the world has to face the problem of the new nationalism which strikes at the roots of human dignity and liberty. Hitler talks about God but his god is a god created by man after his own image.

"At present we have genes and chromosomes ruling the world," concluded Dr. Bonn.

COMMERCE END PRELIMINARIES

of capital required for mass production has also limited the number of individual enterprises who fifty years ago could have set up in business for themselves with a fair amount of success.

The Opposition.

The negative side maintained that, as in the present day, production has increased a hundred per cent. more workers are required and, therefore a greater chance is offered to a greater number of people. Also the research work connected with the great industries offers many jobs for trained men.

Both sides maintained the necessity of education in producing efficient and capable men, for there

A practice will be held in Strathcona Hall, second floor, on Saturday morning at 11 o'clock.

are always opportunities for the essential requirements.

The judges, Dr. Beach, Director of the School of Commerce, and Mr. Vineberg, lecturer in economics and political science, admitted they had difficulty in choosing the best speakers of the various years, but their final decision was: first year—L. Manolson, and runner-up, E. W. Beaton; third year—E. Skutezky and runner-up, J. Toller. There was no judgment passed on the discussion of the fourth year students as they were only two.

THE TEAMS:

Yesterday the preliminary debates of the Commerce Debating Society were brought to a close and the following will form the Commerce teams—1st year—L. Manolson and W. Beaton; 2nd year—D. Delvin and R. Rolland; 3rd year—E. Skutezky and J. Toller; 4th year—Chairman of the Commerce Debating Society stated. The four teams will compete amongst themselves in a series of debates, to find a team for the Commerce faculty the exact dates of which will be announced soon.

McGILL STUDENT WINS PRIZE AT STUDENT NIGHT

good performance. The second speaker was Bernard Beaupre, of L'Ecole Polytechnique. He gave his hearers an insight into the modern methods of utilizing and disposing of waste from canneries. He also touched on the economic and ecological aspects of his topic.

The third speaker of the evening was W. C. Brown of McGill, whose subject was "The Construction of Boulder Dam." He provided an account of the problems the engineers of the project encountered, mentioning in addition statistics about the project itself. The fourth speaker, Roger Lesard, S.E.I.C. of L'Ecole Polytechnique, spoke on "Normography." Although, as Dr. Surveyer pointed out when announcing the judges' decision, the speech was rather too abstruse for most of those present, it was nevertheless well received and provided a stimulating diversion for the senior men in attendance. All the papers were illustrated with concomitant slides.

Mr. Gerard Aubry, S.E.I.C. of L'Ecole Polytechnique was the chairman of the meeting. In a few words after the decision had been announced, he thanked the judges who had made available their services, and pointed out to the four contestants the advantages they will derive from their membership in the Institute. The meeting was then adjourned and refreshments provided for those present.

"Look at the pretty telephone girl at the next table."

"How do you know she's a telephone girl?"

"I said, 'Hello,' twice and got no answer."
